

Village Deli Bongaree is known for high quality deli produce and a friendly cafe atmosphere.

"We use Amicus point of sale to link the deli and cafe, providing our customers with a true, full service experience!"

Village Deli Bongaree wanted to allow their customers to pick produce from the deli and relax with a coffee in the cafe, all under the one bill. They found that point of sale systems performed in one area but failed in the other, until they found Neotechnology and Amicus POS. Not only does the multisite functionality allow Village Deli Bongaree to unify their business units, but they discovered that the hospitality and retail system looks good, is user friendly and highly flexible!

Village Deli Bongaree

- ◇ Provides quality deli-style produce and a friendly cafe experience
- ◇ Focuses on delivering consistently high quality service
- ◇ Operating for nearly 6 years
- ◇ Seats 40, mainly catering to locals

"A quality hospitality system for our cafe, fast and reliable retail point of sale for our deli and all the reporting and multisite control in our back office, what more could we want from a system?"

When Village Deli Bongaree first adopted Amicus POS they required some customised reports to get the most out of the system. The versatility of Amicus meant that Neotechnology were able to create these reports easily, providing Village Deli Bongaree with a finished product customised to their specific needs. These suggestions have been used as feedback for the development of Amicus, keeping the system modern, fresh and up to date.

The Amicus integration with the OPOS standard for printers and other hardware mean that Village Deli Bongaree has no issues connecting various hardware to their Amicus system. Coupled with the very logical, intuitive and user friendly sales screens and powerful reporting and business control in the back office, Village Deli Bongaree are able to focus on what's really important, delivering the highest quality service to their customers and growing their business.

Neotechnology are proud to have provided a system which has done everything Village Deli Bongaree wanted and more, showing that Amicus point of sale and business management really is an investment in the future of your business.

Why Choose Amicus POS for your multisite business?

Integrate multiple industry types or business units all in the one system - employees only have the one system to learn.

Versatility means that it can be customised to fit the specific needs of your business.

Centralised pricing and product databases keep administration costs down

Intuitive point of sale and powerful back office functionality, allowing you to effectively manage your business.

“The technology behind the system is exactly what we needed to get the most out of the computers in our business. Flexible, reliable and efficient is how we like it, and Amicus delivers.”
